

THE RULES

You are a tributary of Ganga. 5 people can play. The first to reach the ocean wins.

To start, draw a six to melt the Gangotri glacier.

55 • **Bonus chance!** You ran a micro hydel power station. Renewable energy resource.

Snakes

29 • **Enter a big dam reservoir.** Dams on Ganga cause environmental decay.

35 • **You are dumped with toxins** from dyeing and leather industries.

37 • **Water crops grown with pesticides-** Pesticides contaminate groundwater.

49 • **Used for bathing with soap** Mass bathing causes bacterial pollution in Ganga.

75 • **Washed clothes with detergent.** Polluted!

78 • **Flushed toilet.** Accounts for 80% of Ganga's pollution.

94 • **Ran a thermal power plant.** Carrying effluents that have toxic metals and coal dust.

Ladders

07 • **Enter forests.** Act as carbon sinks, increase oxygen content, conserve soil, control floods.

19 • **You seep into groundwater** Groundwater aquifers get recharged.

27 • **Buffaloes bathed in you.** Raised organic content.

41 • **Water an organic farm.** Pesticide free. No water pollution. Promotes food security.

57 • **Plenty of fish live in you.** Aquatic life support livelihood and biodiversity.

71 • **Water a grassland.** Enriches soil. Supports habitat.

82 • **Enter marshes.** Have high nutrient value, control floods.
